Hunger.

Turn your waste into love for the needy

by Team Bring Me Fly

Problem 1: Food Waste

 by 2020 the total amount of food waste can certainly fill up 16 of the twin towers. Malaysianswaste about16,688 tonnes offood per day

Objective: halve per capita global food waste at the retail and consumer level, and reduce food losses along production and supply chains by 2030

Problem 2: Hunger due to Poverty

 almost 60 million in the world were undernourished in 2019 the number of people affected by hunger will surpass 840 million by 2030 or 9.8 percent of the global population

Objective: end hunger and ensure access by all people, in particular the poor and people in vulnerable situations including infants, to safe, nutritious and sufficient food all year round by 2030

Focusing on giving the excess food right to their doors. At the same time, reducing food waste.
